**ABSTRACT:** - In the article fast to say small age and initial class age children in his speech defects eliminate in reaching importance and speech defects fast to say using eliminate reach methods about thought was conducted.

**KEYWORDS:** Fast say , phonetic events , phonetic conflicts , mental stress , age according to fast to say types .

### INTRODUCTION

In science children of speech breakdown processes enough studied though , speech of violation some aspects yet his own the solution until found no Linguistics in science of speech breakdown reasons one on the other hand , man in the psyche happen has been sharp changes ( stess , fear , mental contractions and b.) with if interpreted , the second from the side , speech in the device born defects with dependence is emphasized . First condition of a person the world understanding in the process environment , people or different from events hard exposure as a result surface came speech breakdown

event if , the second one so much complicated condition being , this in progress of a person speech harvest in doing participant in members defects there is will be the world from linguists RElevina of speech enough level development and his analysis , speech with depends defects determination and eliminate reach methods dedicated studies take went Scientific in his observations speech of violation exactly second issue wide in aspect studied . From this except VK Orfinskaya , YF Sobotovig , SS Lyapidevsky , YM Mastyukova such as one series of scientists speech violation cause emits factors and them

eliminate reach in order to take went studies are also considered is rich Above names given of scientists in their work of speech right pronunciation , word to wealth , grammar related to the structure speech make up in the process being observed shortcomings , speech makes sense and in consistency make up in the process children by in mastering difficulties and them eliminate reach ways showing passed .

Primary in class study taking in children observable speech with depends in defects basically sounds wrong pronunciation do , word joints to each other adding speak not get such as circumstances observed . This is it condition above emphasizing passed at work of the child two in the case - strong spiritual stress with depends in case or speech in the device born defect with ( or from birth after acquired speech to the device about defects with ) classification will be done . First in the case speech defects eliminate in reaching qualified pedagogue child psychology with in pursuit performance necessary will be Your child free thinking for chance create it attention with listening and thinking level identify get main the goal is considered Second in case speech in the device defects , defects eliminate in reaching from the pedagogue with the child separately exercises perform through in it speech with depends problems correction Demand will be done . In speech defect there is has been children with at work which is usually a child the sound pronunciation in doing defect if you feel it , that's it sound participation reached the words pronunciation make through in it defect correction method speech therapist in practice wide is used . In this process defective pronunciation being done of sound word at the beginning , word between , word At the end of came options choose repeated exercises through of the child speech defect will be corrected .

This is us in our study exactly that's it of direction another one aspect attention we want to show Above highlighted speech therapist in practice to the children pronunciation in doing difficulty gave birth to to the sound suitable words participation reached items shown their names telling to give Demand done if , we used to drove in style children which the sound pronunciation to do suffered if so , that's it to the sound suitable fast to say with exercise make through of children in his speech disadvantages correction main the goal is considered

Oral creativity example to be fast to say with speech exercise make from before known method Although it is considered , we used to drove defective to the sound accent giving fast to say choose new approach is considered

Quick to say initially at gatherings , talking such as sitting , parties say , heart writing , laughing , sadness they forgot Times pass with this genre children , teenagers and big old people popular among Next in years fast to say school included in the textbooks . Quick don't say main function complicated sounds from the chain consists of sentences repetition through speech to grow directed logical-discursive exercises is considered Quick to say speech from cultivation except people history , culture storage and spiritual and moral feelings to upgrade directed .

In speech vowel sounds with depends defect correction in the process to the children the following fast to say exercise make very effective :

It 's like a mountain original juniper

the tracks of a bear , a lion particle

Odilbek polite fair boy

First fast in saying "a" vowel , in the second while "o" vowel repeat without used witness we will be This is it fast from saying vowel

sounds pronunciation in doing to the difficulty occurring of children in his speech defects eliminate reach for use gives good results . In this process of the child sounds pronunciation reach to the situation serious attention to give necessary.

Consonant sounds pronunciation in doing from the lungs coming out the air mouth in the void I know to the fence meeting output known . If in children something consonant the sound pronunciation in doing defects if observed , them correction for of consonants to conflict based on fast from saying use important is considered For example : "g" consonant pronunciation in doing to the difficulty occurring children for below to say quickly exercise make useful will be :

Be happy flowers the blue seeing bloomed

This is it fast in saying Consonant "g" . with together his zidi The consonant "k" is also participate that he did sounds pronunciation to do in the process "g" and "k" consonants harvest to be instead of according to one diversity manifestation even if it does, but the voice and noise to the sign according to mutually contradicts \_ Sounds of the couple exactly that's it feature of the tongue sound harvest to be in the process directly movement delicacy provide for basis will be If this fast to say in order respectively if repeated , "g" or "k" consonant pronunciation in doing defect there is has been of children speech smooth to do big help gives "consonant "R". based on " Rana From Ravshan are you offended ? Clearly From Rana hurt ?' or Rana He chose colorful colors for his pictures fast to say children for gives good results . Because small old in children a lot cases "r" consonant pronunciation in doing defect there is This situation prevention the consonant "r" is also taken to conflict based on fast to say gives good results .

Summary by doing saying , "It's still humanity reading and writing didn't know at times and the future to generation moral education to give about views artistic of literature initial appearance has been people oral reflected in the samples in experience tested , polished , these processes through while proverbs , proverbs , tales , Riddles , legends and narratives to say by means of of people ethics , patience , honesty and religion , correctness and truthfulness such as characteristics promote done " [5]. Uzbek children folklore to the composition incoming fast to say genre from long ago ceremony folklore in the composition formed and later they are to the ceremony relationship features lose , public character occupation reached Today's to the day come fast to say and riddles school included in the textbooks . Quick from saying speech grow up tool as is being used

This from the genre efficient use children speech smooth in doing big importance occupation is enough School age and initial in class study taking of students speech smooth to do very important None one father mother his child another from children behind stay doesn't want , besides , children health - society health , nation of the gene pool healthy in being each one element important important have
