INTRODUCTION

Uzbekistan SSR October revolution because of to the body came In May 1925 at the III Congress of Soviets of the USSR Uzbekistan and Turkmenistan republics into the USSR you entered national territorial of limitation legal the end it has been . Uzbekistan on October 17 , 1924 Soviet socialist Republic was built . In the territory of the Uzbek SSR power full Uzbekistan Soviet Socialist Republic of the first government - Provisional Revolutionary Committee into his hand passed . This is the Committee Soviets of the Uzbek SSR Establishment until the sezdi the work saw On December 5, 1924, the Uzbek SSR Revolution Committee of Uzbekistan all to the workers petition out to them Uzbekistan Soviet Socialist Republic that it is composed known did That's it thus within the USSR Uzbekistan SSR was created came Of course , his external communications are also controlled by the USSR under action increased The relations of the Uzbek SSR with foreign countries, whether economic or cultural, were carried out within the interests of the USSR. The content of foreign relations changed according to the current political processes in the USSR. In particular, the formation of the Soviet state, the transition from the stage of capitalism to socialism, as well as many other fields, affect foreign relations. also had its effect. Socialism in the USSR to the stage from the past after to him suitable respectively in society new " international " culture was created . This is culture wide within the meaning of the USSR all countries for created the only one culture was Otherwise by doing to say as for national of culture the most good samples in itself embodied culture was In the literature created during the Soviet period " international culture " to high thank you given it nations connecting cultures developing factor as confession ethylene . In particular , The working class, which is the ruling class of socialism, became the bearer of a new ideology - internationalism . The relationship between nations and peoples has changed radically. Confidence in the international brotherhood of people has increased, it makes people forget

about the discord between peoples. Actually, "international culture" how culture was above as we said, national of culture the most good samples combined culture was which one in a sense the rest of nations culture account no, within the USSR all nations for created common one culture was "Spiritual We are great in the field social and historical value, whole of our union unique property to be national of cultures great diversity confession to do we are based. We are theirs enough for any price not to give or especially of them deprived to be no, because their each one is unique. We each one of the people, national language and of culture free, every bilaterally development our supporter". "International culture" MS Gorbachev's the following to his thoughts absolutely opposite concept was State by "Soviet culture this culture not only citizens socialist in the spirit in education, perhaps abroad countries with cultural in communications promotion about using the state international scale role manifestation in doing tool being service did

In general when, this period of the Uzbek SSR abroad countries with take went cultural connections Uzbek culture to show not but again to the field came socialist culture propaganda directed was From Uzbekistan culture representatives abroad countries with cultural in collaboration mother so soviet to the ideology based on socialist culture promoter has been get rid of of the Uzbek SSR economic connections stopable soviet during Uzbekistan SSR has many countries, that's it including socialist Europe countries and economic and cultural connections take went Especially with the GDR in collaboration of Uzbekistan different in the regions factories, factories to work downloaded.

So though this period all economic relations are also in the interests of the USSR based on was 1945-1990 years of Uzbekistan SSR during abroad countries with take went connections many specialists by research done being him as follows to groups separated without descriptively let's go: Group 1. Soviet published during books and scientific things In this period created of works mostly part soviet ideology based on although, of the Uzbek SSR abroad countries with economic and cultural connections about important data there is. In particular, MEKhayrapetyan, VV Sukhodeev, K, I. Mikulsky and another many the authors socialist countries between economic and scientific and technical cooperation development to learn big contribution added. Socialist of countries cultural cooperation issues while -SK Romanovsky in his works wide analysis done and generalized. AI Arnoldova, YI Kandalov -USSR and between the GDR cultural connections learning task own to them besides, it is mainly socialist community countries culture development and zoom in problems light up they gave USSR and socialist countries between cooperation to learn dedicated one series affairs done These are to the line NPDracheva and NNPopov, VLKrasnoglazov, VPZhukov and another -researchers our input can These monographs are GDR and brother socialist countries, first next, Soviet Union with of relationships formation and development of learning -structural is part of Economical cooperation to learn known contribution those who added

AVNikolayeva in the work between the USSR and the GDR in the mid -50s and 60s economic, scientific and technical cooperation issues essentially illuminated as well as developed socialism successful in construction countries between of connections importance open given and this efficient of cooperation stages described. Last in years Uzbekistan of the SSR socialist countries with in relations participation according to series candidacy dissertations protection In particular, Sh.Abdullaev's "Uzbekistan of the SSR of the USSR Czechoslovakia Socialist Republic with economic, scientific and technical and cultural to cooperation added contribution (1959-1975)" M. Lafasova "Uzbekistan of the SSR of the USSR Cuba Republic with technical and economic, scientific and cultural in cooperation participation (1959-1975)" and others That's it with together, Soviet of Uzbekistan international to relations about issues own into received pamphlets weighty level that to emphasize it is necessary MAakhunova,

MEAgafonov and DIChekurov, IX Tokhtakhojaeva and of others pamphlets these are including Also MG Pikulin of Uzbekistan East countries with economic and cultural connections lighting with together, this in progress culture and his also referring to the situation passed. In research Soviet during Uzbekistan of culture activity and in this of the state participation based on acceptance done decisions statement done

This is a group books next to H. Ziyayev including research can In literature of Uzbekistan foreign countries with economic and cultural connections about to stop with together, culturally of connections countries between friendship and peace in storage importance open given That's it such as soviet during created one series in the literature Uzbekistan of the SSR socialist countries with connections analysis done

Group 2. Independence years publication done books and take went studies. Independence to the period come to Uzbekistan abroad countries with connections of learning new stage started Researchers now main their attention more independent Uzbekistan Republic of international connections to learn they looked Exactly Uzbekistan SSR and socialist of states connections about books almost there is it's not. Independence initial in the years RM Babakhojayeva " of the USSR international cultural in their relations of Uzbekistan on the topic of " participation ". scientific research take went In the study of the USSR cultural connections wide stop, that's it in progress of Uzbekistan participation the facts based on analysis by doing given Above at work only cultural connections reflection reached If so, K. Sulaymanov trade-economic, scientific-technical, that is with together, culturally attention to communications as well focus with important. General international connections according to less numerous affairs done In this place, F. Ernazarov's " Uzbekistan Asia countries with cultural " connections ". research we bring can Research periodic the border covers the years 1945-1991 takes Research initial chapter general " international cultural " communications " concept, Soviet of the state external policy and ideology about is next chapters separately cultural to areas stopping passed. Summary by doing as he said in the case of the SSR of Uzbekistan external connections soviet during Independence to the period relatively wider research done Periodic point of view from the point of view when lit, ideological differences there is although, of the Uzbek SSR international economic and cultural to his relations about important data there is.
